

The following information shall also be included:

Estimated weight and/or volume of medical waste: A summary of the estimated weight and/or volume of medical waste managed or expected to be managed during the permit period. For permit renewals, the amount managed during the previous permit period [Title 22, CCR, Section 65625(a)(6)]. A description of the process to be used for disposal of treated wastes.

Special occurrences: A description of any special circumstances (e.g., fires, injury, property damage, accidents, or unusual occurrences), incidents involving medical waste releases or discharges, and any reports of noncompliance that have occurred at the facility during the previous permit period. If there is insufficient space to complete your response, please attach additional sheets when necessary [Title 22, CCR, Section 65623(l) and (j)].

Compliance history: A detailed description of the facility's operational compliance history relative to local, state, or federal laws and regulations regarding the management, storage, and/or treatment of medical, hazardous, and/or solid waste (including emissions and/or discharges) during the previous three years. Include information from other facilities under your control for the same time period (HSC, Section 118160).

Provide the following facility information: Attach additional sheets when necessary to complete your response.

If applying for a treatment facility permit, provide the rated capacity per operational cycle, the time per cycle, the number of operating hours per day, and days per week of operation of the treatment unit. Include a summary of the estimated weight or volume of medical waste handled or expected to be handled during the permit period. For renewals, provide the amount of medical waste handled during the previous permit period [Title 22 CCR, Section 65625(a)(5) and (6)].

If applying for a treatment facility permit, provide a description of the process to be used for treating medical waste and the type of waste being treated. What measures are employed to prevent unauthorized waste from being stored or treated at the facility? Include make, model, and alarm level of radiation detection devices [Title 22 CCR, Section 65625(a)(5)].

If applying for a medical waste facility permit, provide the average monthly quantity of medical waste to be stored and/or treated on the property and the total capacity of the area used for medical waste storage [Title 22 CCR, Section 65625(a)(6)].

Facility Site Plan: Each area described in the Facility Plan shall be labeled appropriately.

1. Provide a scale drawing and general description of the facility showing location of all the medical waste storage areas and treatment locations [Title 22, CCR, Section 65625(a)(7)].
2. Provide a scale drawing of the facility that provides a detailed description of the ingress, egress, a description of the security measures employed, and other relevant areas that will be used as part of the ongoing facility operation [HSC, Section 118115(f)].

Map

Attach to this application a map extending for one mile beyond the property boundary identifying access roads and the type of development surrounding the facility (e.g., residential, commercial, recreational, schools, etc.) [Title 22 CCR, Section 65625(a)(8)].

Disclosure Statement

Provide a disclosure statement as specified in HSC, Section 118155(d). For more information on the disclosure statement, visit the California Department of Public Health web site at <http://www.cdph.ca.gov> [Title 22 CCR, Section 65625(a)(9)].

Security Procedures

Provide a description of the security procedures required as specified in HSC, Section 118310 [Title 22, CCR, Section 65625(a)(10)].

General Operation Plan

Provide a copy of the facility's Operation Plan and Procedures with this application. The Operation Plan and Procedures shall include, but not be limited to, the facility's general operation plan, a schedule for the inspection and calibration of all monitoring equipment (including radiation detection equipment), a description of disinfection procedures, location and type of safety and emergency equipment, location and type of security devices, and operating and structural equipment that are important in preventing or responding to medical waste-related environmental and/or human hazards [Title 22, CCR, Section 65625(a)(11)].
